Certified Basic Network Support Professional

Certification Code VS-1034

Basic Network Support Professional helps demonstrate an individual's overall comprehension and expertise of supporting small and medium computer network. VSkills Basic Network Support Professional Certification holders have more than a working familiarity with networks, switches—they are technically skilled to take advantage of the breadth of features efficiently and effectively.

Network support consists of day-to-day support of computer network and networking devices like hub, switches, etc. Certification covers basics of a computer network, networking media (wired and wireless), networking devices and configuration, management and troubleshooting of switches.

It is in great demand in IT infrastructure companies, data centers, MNCs, Corporates and Government organizations.

Why should one take this certification?

This Course is intended for professionals and graduates wanting to excel in their chosen areas. It is also well suited for those who are already working and would like to take certification for further career progression.

Earning VSkills Basic Network Support Professional Certification can help candidate differentiate in today's competitive job market, broaden their employment opportunities by displaying their advanced skills, and result in higher earning potential. VSkills Basic Network Support Professional Certification can also lead to increased job satisfaction. Certified individuals have increased competence, productivity, and credibility with their employers, co-workers, and clients.

For employers, the certification provides skill-verification tools that not only help assess a person's skills in basic network support but also the ability to quickly complete on-the-job tasks across multiple programs.

Who will benefit from taking this certification?

The certification benefits hardware engineers and professionals, networking engineers and professionals and students who want to present themselves as truly knowledgeable and differentiate themselves in a competitive job market. It also helps hiring managers make job placement decisions. Managers who hire candidates with a VSkills Basic Network Support Professional Certification are helping minimize training costs.

Certified Basic Network Support Professional

Test Details:

- **Duration:** 60 minutes
- **No. of questions:** 50
- **Maximum marks:** 50, Passing marks: 25 (50%); There is no negative marking in this module.

Fee Structure:

Rs. 3,499/- (Excludes taxes)*

*Fees may change without prior notice, please refer <http://www.vskills.in> for updated fees

Companies that hire Vskills Certified Basic Network Support Professional

Basic Network Support Professionals are in great demand. There are a lot of boutique niche companies, specializing in Integration Services, who are constantly hiring knowledgeable professionals. International job consultants also are constantly looking for Basic Network Support Professional for overseas jobs. The skill is also greatly in demand in government projects and companies.

Table of Content

1 Introduction to Networking Concepts

- 1.1 What is Networking
- 1.2 Advantages & Disadvantages
- 1.3 Network Characteristics
- 1.4 Network Models (Peer-to-Peer and Client-and-Server)
- 1.5 Network Types (LAN,WAN,MAN,PAN)
- 1.6 Network Topologies (Bus, Star, Ring)
- 1.7 Internet connection (DSL, Cable, Serial Link)
- 1.8 Network Media

2 Networking Models

- 2.1 History
- 2.2 Layered Network Model
- 2.3 Layering Concepts and Benefits
- 2.4 TCP/IP Protocol Architecture
- 2.5 RFC
- 2.6 Application, Transport, Internet and Network Access Layer
- 2.7 Devices at different layers
- 2.8 Data Encapsulation
- 2.9 The OSI Reference Model
- 2.10 OSI Layers and Their Functions
- 2.11 Comparing OSI and TCP/IP

3 LAN

- 3.1 Ethernet History
- 3.2 Ethernet Types (10/100/1000 Base T, TX, SX/LX)
- 3.3 10BASE2 and 10BASE5
- 3.4 Repeaters
- 3.5 10BASE-T with Hubs
- 3.6 UTP Cabling, UTP Cables and RJ-45 Connectors
- 3.7 UTP Cabling Pin-outs
- 3.8 CSMA/CD
- 3.9 Using Switches and Their Advantages
- 3.10 Ethernet Data-Link Protocols and Frame
- 3.11 Wiring Ethernet Cables
- 3.12 Ethernet Addressing, Framing and Error Detection
- 3.13 LAN Types (Ethernet, Token Ring, FDDI)

4 WAN

- 4.1 WAN Basics (DCE,DTE, CSU/DSU, CPE, Demarc, DS0)
- 4.2 WAN Technologies (Leased Lines, Circuit & Packet Switching & Cell Relay)
- 4.3 HDLC (High Level Data link Control)
- 4.4 PPP (Point-to-Point Protocol)

- 4.5 Frame Relay
- 4.6 ATM (Asynchronous Transfer Mode)
- 4.7 WAN Cabling Standards
- 4.8 Clock Rates, Synchronization, DCE, and DTE
- 4.9 OSI Layer for Point-to-Point WANs

5 Internet Protocol

- 5.1 Network Layer Functions
- 5.2 IP Packets
- 5.3 IP Routing
- 5.4 Routing Protocols
- 5.5 IP Addressing
- 5.6 A, B, and C Classes of Networks
- 5.7 IP Subnetting
- 5.8 Host & Router Routing
- 5.9 ARP, DNS, DHCP & Ping

6 TCP/IP Transport Layer

- 6.1 Transport Layer Protocols: TCP and UDP
- 6.2 Transmission Control Protocol
- 6.3 Ports & Their Multiplexing
- 6.4 TCP Error Recovery, Flow Control and Data Segmentation
- 6.5 TCP Connection Establish and Terminate
- 6.6 UDP (User Datagram Protocol)

7 Applications

- 7.1 TCP/IP Applications, QoS Needs and Impact
- 7.2 The World Wide Web
- 7.3 HTTP (Hyper Text Transfer Protocol), HTTPS & SSL
- 7.4 Universal Resource Locators
- 7.5 FTP (File Transfer Protocol), Secured FTP
- 7.6 SMTP, POP3 & IMAP
- 7.7 Telnet

8 Network Security

- 8.1 Sources and Types of Threats
- 8.2 Firewalls
- 8.3 Intrusion Detection and Prevention
- 8.4 Virtual Private Networks (VPN)

9 LAN Switching

- 9.1 Ethernet LAN Media and Cable Lengths
- 9.2 Hubs, Bridges, and Switches
- 9.3 Forward and Filter Decision Switching
- 9.4 Learning MAC Addresses & Frames Flooding
- 9.5 Spanning Tree Protocol

9.6 Collision Domains and Broadcast Domains

9.7 Virtual LANs (VLAN)

10 LAN Switches

10.1 Switches and LED Switch Status

10.2 Accessing the CLI & Password Security

10.3 User and Enable Modes

10.4 The debug and show Commands

10.5 Configuration Sub-modes and Contexts

10.6 Storing, Copying and Erasing Switch Configuration Files

10.7 Initial Configuration

11 Ethernet Switch Configuration

11.1 Securing CLI

11.2 Console and vty Settings

11.3 logging synchronous and exec-timeout Commands

11.4 IP Address & Interfaces Configuring

11.5 Port Security

11.6 VLAN Configuration

11.7 Securing Unused Interfaces

12 Switch Troubleshooting

12.1 Cisco Discovery Protocol

12.2 Layer and Interface Status

12.3 Interface Speed and Duplex Issues

12.4 Analyzing the Forwarding Path

12.5 Port Security and Filtering

13 Wireless LANs

13.1 Wireless LAN Basics

13.2 Wireless LAN Standards & Modes

13.3 Wireless Encoding and Nonoverlapping DSSS Channels

13.4 Wireless Interference, Coverage Area, Speed, and Capacity

13.5 Wireless Media Access (Layer 2)

13.6 Wireless LAN Security (WEP, WPA, IEEE 802.11i, WPA-2 SSID Cloaking and MAC Filtering)

14 Operating Routers

14.1 Installing Routers & Router Interfaces

14.2 Router CLI & Difference with the Switch CLI

14.3 Interface Status Codes and IP Addresses

14.4 Bandwidth and Clock Rate on Serial Interfaces

14.5 Router Auxiliary (Aux) Port

14.6 Setup Mode, Upgrading and boot process of the IOS

14.7 Configuring the configuration register and the show version command

15 Routing Protocol Concepts and Configuration

- 15.1 Connected and Static Routes
- 15.2 Default Routes and their configuration
- 15.3 Routing Protocol (IGP & EGP) & algorithms
- 15.4 Autosummarization and Manual Summarization, Classless and Classful Routing Protocols and Convergence
- 15.5 Basic concepts, configuring and verifying RIP-2
- 15.6 Different metrics used and the show ip route command
- 15.7 Administrative Distance
- 15.8 Debug command and RIP

16 Troubleshooting IP Routing

- 16.1 IP Addressing issues
- 16.2 Host networking commands of telnet, traceroute, ipconfig, arp, netstat and nslookup

17 WAN Concepts

- 17.1 WAN Technologies (PSTN, DSL & Cable)
- 17.2 PSTN and analog modems
- 17.3 Digital Subscriber Line types
- 17.4 Cable Internet
- 17.5 Asynchronous Transfer Mode (ATM)
- 17.6 Packet and circuit switching
- 17.7 NAT and PAT

18 WAN Configuration

- 18.1 Configuring Point-to-Point WANs, HDLC and PPP
- 18.2 Internet Access Router: Configuration Steps
- 18.3 Step & configure IP Connectivity, DHCP and PAT

Sample Questions

1. Considering the DTE and DCE in a WAN, does it matter which side supplies the clockrate?

- A. Yes, the DTE must do so.
- B. Yes, the DCE must do so.
- C. No, the clockrate can be configured on either.
- D. Actually, they both have to supply the clockrate to each other.

2. What default router behavior allows hosts with addresses from the range discussed in the previous to access Internet-based hosts?

- A. PAT
- B. NAT
- C. overloading
- D. None of the above

3. What command will show you both the DTE/DCE end of the cable connected to a Serial interface and the encapsulation type in use?

- A. show controller
- B. show interface
- C. show version
- D. show ip route

4. Of physical, multipoint, and point-to-point Serial interfaces, which one(s) can use the frame map command once they're enabled with Frame Relay?

- A. show ipx servers
- B. show ipx hosts
- C. show ipx sap
- D. show ipx nodes.

5. What will happen if you configure the clockrate command on a DTE?

- A. The line protocol goes down
- B. The physical interface goes down
- C. An error message is generated
- D. Nothing - that's where it should be.

Answers: 1. (B) 2. (D) 3. (B) 4. (D) 5. (C)

Certifications

➤ Accounting, Banking and Finance

- Certified AML-KYC Compliance Officer
- Certified Business Accountant
- Certified Commercial Banker
- Certified Foreign Exchange Professional
- Certified GAAP Accounting Standards Professional
- Certified Financial Risk Management Professional
- Certified Merger and Acquisition Analyst
- Certified Tally 9.0 Professional
- Certified Treasury Market Professional
- Certified Wealth Manager

➤ Big Data

- Certified Hadoop and Mapreduce Professional

➤ Cloud Computing

- Certified Cloud Computing Professional

➤ Design

- Certified Interior Designer

➤ Digital Media

- Certified Social Media Marketing Professional
- Certified Inbound Marketing Professional
- Certified Digital Marketing Master

➤ Foreign Trade

- Certified Export Import (Foreign Trade) Professional

➤ Health, Nutrition and Well Being

- Certified Fitness Instructor

➤ Hospitality

- Certified Restaurant Team Member (Hospitality)

➤ Human Resources

- Certified HR Compensation Manager
- Certified HR Staffing Manager
- Certified Human Resources Manager
- Certified Performance Appraisal Manager

➤ Office Skills

- Certified Data Entry Operator
- Certified Office Administrator

➤ Project Management

- Certified Project Management Professional

➤ Real Estate

- Certified Real Estate Consultant

➤ Marketing

- Certified Marketing Manager

➤ Quality

- Certified Six Sigma Green Belt Professional
- Certified Six Sigma Black Belt Professional
- Certified TQM Professional

➤ Logistics & Supply Chain Management

- Certified International Logistics Professional
- Certified Logistics & SCM Professional
- Certified Purchase Manager
- Certified Supply Chain Management Professional

➤ Legal

- Certified IPR & Legal Manager
- Certified Labour Law Analyst
- Certified Business Law Analyst
- Certified Corporate Law Analyst

➤ Information Technology

- Certified ASP.NET Programmer
- Certified Basic Network Support Professional
- Certified Business Intelligence Professional
- Certified Core Java Developer
- Certified E-commerce Professional
- Certified IT Support Professional
- Certified PHP Professional
- Certified Selenium Professional
- Certified SEO Professional
- Certified Software Quality Assurance Professional

➤ Mobile Application Development

- Certified Android Apps Developer
- Certified iPhone Apps Developer

➤ Security

- Certified Ethical Hacking and Security Professional
- Certified Network Security Professional

➤ Management

- Certified Corporate Governance Professional
- Certified Corporate Social Responsibility Professional

➤ Life Skills

- Certified Business Communication Specialist
- Certified Public Relations Officer

➤ Media

- Certified Advertising Manager
- Certified Advertising Sales Professional

➤ Sales, BPO

- Certified Sales Manager
- Certified Telesales Executive
