Certified Textile Designer
VS-1193

Certified Textile Designer

Certification Code VS-1193

Vskills certification for Textile Designer assesses the candidate as per the company's need for designing garments with variation in color, fabric and texture. The certification tests the candidates on various areas in textile basics, textile production methods, textile printing, embroidery stitching and Indian textile techniques like Chikankari, Phulkari and Bandhani.

Why should one take this certification?

This Course is intended for professionals and graduates wanting to excel in their chosen areas. It is also well suited for those who are already working and would like to take certification for further career progression.

Earning Vskills Textile Designer Certification can help candidate differentiate in today's competitive job market, broaden their employment opportunities by displaying their advanced skills, and result in higher earning potential.

Who will benefit from taking this certification?

Job seekers looking to find employment in textile design, sale, production and quality control departments of various companies, students generally wanting to improve their skill set and make their CV stronger and existing employees looking for a better role can prove their employers the value of their skills through this certification.
