Certified Mobile Testing (Appium) Professional

Certification Code : VS-1425

Increasing spread of internet and mobile technologies have increased the mobile access and thus increased need for mobile applications. Mobile application development has cascaded to increased demands for skilled professionals for testing of mobile applications.

Due to huge variations in mobile devices, operating systems and features has led to need of automated testing of mobile applications.

Appium is an open source test automation framework for testing of native, hybrid and mobile web apps. It tests iOS, Android, and Windows apps using the WebDriver protocol.

Why should one take this certification?

The certification adds value to both professionals and students, engaged in software testing.

Increased proliferation of mobile devices is shifting the software related development, to mobile platform. Skilled professionals are needed to develop and test mobile applications to cater to the increased demand.

The certification validates candidate's skills in automation testing of mobile applications using the Appium open source tool.

Who will benefit from taking this certification?

Job seekers looking for employment in IT companies, IT departments of PSUs or MNCs, will find the certification of great help. Certification in Appium open source tool benefits IT professionals, students and professionals engaged in software development who want to move to automation testing of mobile applications.

Certification is a proof of skills in testing of software applications using Appium.
