Skills for a secure future

## Certified Certified Master in Leadership

Certification Code VS-1428

Leading employees is both a science and art. In complex world of today, organizations seek executives with congregation of multiple skills to take the mantle of leaders. Leaders should be able to inspire, empower, and influence individuals and teams. They need to know how to prime themselves to pick up early signals of change—in their business, in their industry, and in their geography.

Vskills certification for leadership skills, assess candidates in various skill areas of leadership. It enables an individual to be effective leader.

### Why should one take this certification?

Leadership skills have gained prominence as there is increased need to lead organizations through ever changing and complex markets and times we are experiencing. The ability to lead effectively is most sought after by employers.

Leadership skills have become the focused area as leaders need to deal with employees, vendors and stakeholder so, as to motivate, enthuse, build respect and achieve organizational objectives.

The goal of the certification is to update, assess and certify you on the key competencies required to function as a leader. The certification is designed to give you a strong understanding of leadership principles and how to apply them in an organization.

### Who will benefit from taking this certification?

Gaining knowledge in various facets of leadership, ensures you are ready to handle any challenge. The certification gives you confidence and skills to lead your team to success in your organization. The certificate adds perspective to broaden your horizon effective decision making and leading the team.

The certification presents a comprehensive approach to leadership skills starting from development of personal competencies, managing teams, seeking organizational-wide excellence, transitioning to global business leadership and achieving strategic leadership for the organization.
