

# Certified Node.js Security Professional

**Vskills Certifications**

Vskills Brochure

## Certified Node.js Security Professional

Node.js is an open-source, cross-platform, JavaScript run-time environment that executes JavaScript code outside of a browser. Node.js is a JavaScript runtime built on Chrome's V8 JavaScript engine.

Securing Node.js based web and mobile applications is important, considering increased hacking attempts and web based sophisticated attacks.

### Why should one take this certification?

This Course is intended for professionals and graduates wanting to excel in their chosen areas. It is also well suited for those who are already working and would like to take certification for further career progression.

Earning Vskills Node.js Security Professional Certification can help candidate differentiate in today's competitive job market, broaden their employment opportunities by displaying their advanced skills, and result in higher earning potential.

### Who will benefit from taking this certification?

Job seekers looking to find employment in IT security, web development, or IT departments of various companies, students generally wanting to improve their skill set and make their CV stronger and existing employees looking for a better role can prove their employers the value of their skills through this certification.
