Certificate in Project Management

Project management involves skills and techniques to manage a project's budget, scope and schedule.

The Certificate in project management certification covers the project management skills as needed by the industry, like strategic management, project finance, using IT tools for project management and managing international projects.

Why should one take this certification?

The certificate in project management empowers managers, senior manager, senior executives and students to attest to their project management skills in managing a project's budget, scope and schedule. It is an essential skill-set for anyone working in managerial or senior executive position.

Who will benefit from taking this certification?

Project managers, managers, senior executives and students will benefit immensely with the Certificate in Project Management by showcasing their project management skills.

Job seekers looking to find employment in project management or management departments of various companies, students generally wanting to improve their skill set and make their CV stronger and existing employees looking for a better role can prove their employers the value of their skills through this certification.
