

# Certified Angular 10 Developer

**Vskills Certifications**

**Vskills Brochure**

## Certified Angular 10 Developer

This course will take you on an exciting journey to learning Angular concepts with the help of enjoyable and easy-to-understand coding examples. Angular is one of the most popular frontend frameworks for building SPAs or web apps with HTML, CSS, and TypeScript. If you want to become a successful frontend or full-stack developer, Angular skills are a must-have. You'll start by understanding what Single Page Applications are and why you should use Angular to build them.

You'll then explore Angular modules, the `@NgModule` decorator, the Angular Application Bootstrap Mechanism, Angular Components, the `@Component` decorator, component communication, and lifecycle hooks.

As you advance, you'll learn to build your first Angular app within minutes. Before you delve into Angular 2 and later versions of Angular, which are all written in TypeScript, you'll learn the fundamentals of TypeScript and object-oriented programming to better understand and appreciate this powerful framework.

You'll also discover best practices for building Angular apps. By the end of this course, you'll be able to build end-to-end SPAs in Angular on your own, understand and fix common compile-time and runtime errors quickly, and implement clean and maintainable code like a professional.

Pre-requisite: Knowledge of Javascript, HTML/HTML5, computer networking and internet.

Note: Please note that the course comes with online e-learning (videos) only. No hard copy will be provided.

### Why should one take Angular 10 certification?

The certification is suitable for web developers, programmers and graduates wanting to excel in web application development areas. It is also well suited for those who are already working in web development and using angular and would like to take certification for further career progression in web application development.

Earning Vskills Angular 10 Developer Certification can help candidate differentiate in today's competitive job market, broaden their employment opportunities by displaying their advanced skills, and result in higher earning potential.

### Who will benefit from taking Angular 10 certification?

Job seekers looking to find employment in IT or software development departments of various companies, students who want to learn angular 10 and implement the same in their web development journey.

### Test Details

- **Duration:** 60 minutes
- **No. of questions:** 50
- **Maximum marks:** 50, Passing marks: 25 (50%)

There is no negative marking in this module.

### Fee Structure

Rs. 3,499/- (Excludes taxes)\*

\*Fees may change without prior notice, please refer <http://www.vskills.in> for updated fees

### Companies that hire Vskills Certified Angular 10 Developer

Angular is one of the trending JavaScript framework web developers are using to create web applications, there is a huge demand for certified professionals all across the globe. Companies like Google, Flipkart, TCS & Cognizant, IBM, Infosys, IBA etc are looking for certified professionals.

# Table of Contents

## 1. Single Page Applications, Uses of Angular, and Getting Started

- 1.1 Introduction to Single Page Applications (SPA)
- 1.2 Uses of Angular
- 1.3 Setting up a Development Environment
- 1.4 Angular Application Architecture
- 1.5 First Angular App

## 2. TypeScript and ESNext

- 2.1 Introduction to TypeScript
- 2.2 Setting up the Environment to Write TypeScript
- 2.3 Variable declarations (var, let, and const)
- 2.4 Types - Primitives
- 2.5 Types - Reference and Special Types
- 2.6 Operators - Spread and Backticks
- 2.7 Operators - Destructure and Rest
- 2.8 Classes
- 2.9 Interface
- 2.10 Arrow Functions
- 2.11 Modules
- 2.12 fetch
- 2.13 async/await

## 3. Decorators, @NgModule, Angular Modules, and App Bootstrap Mechanism in Angular

- 3.1 Overview of Angular Modules
- 3.2 What are Decorators?
- 3.3 Angular Modules and the @NgModule Decorator
- 3.4 Declarations
- 3.5 Imports and Exports
- 3.6 Providers, Bootstrap, and entryComponents
- 3.7 Angular Application Bootstrap Mechanism

## 4. @Component Decorator, Angular Components, Communication, and Lifecycle Hooks

- 4.1 Angular Components and the @Component Decorator
- 4.2 Creating an Angular Component using the Angular command-line interface (CLI) on StackBlitz
- 4.3 Component Decorator Metadata
- 4.4 View Encapsulation - Emulated, Shadow DOM, None
- 4.5 Data Binding - String Interpolation - {{ }}
- 4.6 Property Binding - []
- 4.7 Event Binding - ()

- 4.8 @Input and @Output Property Decorators
- 4.9 Two-way Data Binding - [()]
- 4.10 Attribute Binding - [attr.]
- 4.11 Class Binding - [class.]
- 4.12 Style Bindings - [style.]
- 4.13 Introduction to Lifecycle Hooks in Angular
- 4.14 Using Lifecycle Hooks in Angular
- 4.15 View Queries: @ViewChild
- 4.16 View Queries: @ViewChildren
- 4.17 View Queries: @ContentChild and @ContentChildren
- 4.18 Change Detection Mechanism in Angular Using ZoneJS and NgZones

## **5. Angular Routing, Guards**

- 5.1 Introduction to Routing
- 5.2 Implementing Routing in an Angular App
- 5.3 Creating a User List and Setting the stage for Child Routing
- 5.4 Abstracting the User Link to a Separate Component
- 5.5 Implementing Child Routes
- 5.6 Path Match and Route Types
- 5.7 Introduction to Route Guards in Angular
- 5.8 CanActivate and CanActivateChild Guards in Angular
- 5.9 CanDeactivate Guard in Angular
- 5.10 Prefetching Data for a Component using Resolve

## **6. Dependency Injection (As a Pattern and Framework), Services, HTTP, Observables**

- 6.1 DI as a Pattern, DI as a Framework and Types of Providers
- 6.2 Hierarchical Dependency Injection
- 6.3 Introduction to Services in Angular
- 6.4 GET Data from a REST API Using HttpClient
- 6.5 CRUD Operations Using HttpClient, HttpParams, and HttpHeaders
- 6.6 Observables and Operators in Observables - Map, Retry, and Catch
- 6.7 Behavior Subject and Sharing Data Using Behavior Subjects

## **7. Directives and Pipes in Angular**

- 7.1 Introduction to Directives
- 7.2 Built-in Structural Directives
- 7.3 Built-in Attribute Directives
- 7.4 Building Custom Attribute Directives
- 7.5 Building Custom Structural Directives
- 7.6 Introduction to Pipes in Angular
- 7.7 Using Built-in Pipes
- 7.8 Creating Custom Pipes in Angular
- 7.9 Pure and Impure Pipes in Angular
- 7.10 Decorators Revisited
- 7.11 Building Custom Decorators in Angular

7.12 Building a Custom Lifecycle Hook Class Logger Decorator

7.13 Building a Custom Property Decorator in Angular

## **8. Forms in Angular**

8.1 Types of Form Building Strategies in Angular

8.2 Creating Long Bootstrap Forms Quickly with VS Code Using Emmet

8.3 Adding FormControl(s) to a Template-driven Form Using the ngModel Directive

8.4 Getting the JavaScript Object Representation of a Form Using the ngForm Directive

8.5 Disabling the Submit Button on a Form Using the Form's \$invalid Flag

8.6 Getting the JavaScript Object Representation of a Form in the TypeScript Class

8.7 Adding Checkbox, Radio Buttons and Select List to your Template-driven Form

8.8 Creating Subsections in the Form Using the NgModelGroup Directive

8.9 Steps to Implement a Reactive Form in Angular

8.10 Quickly Creating a Bootstrap Form for a Reactive Form Using Emmet

8.11 Creating a Reactive Form in the TypeScript class and Connecting it to the Template

8.12 Adding Form Validations to a Reactive Form

8.13 Dynamically Adding or Removing FormControl(s) or FormGroup(s) Using  
FormArray(s)

8.14 Adding Synchronous Custom Validations to a Reactive Form

8.15 Adding Async Custom Validations to a Reactive Form

8.16 Resetting the Value of a Form

## **9. Using Third Party Libraries and Frameworks, such as MDB, Angular Material and Firebase**

9.1 Creating an Angular CLI Project with SCSS as a Base Style

9.2 Introducing Material Design Bootstrap (MDB) into Your Angular CLI Project

9.3 Adding a Navbar in Your Header

9.4 Adding Material Design Buttons

9.5 Adding Cards

9.6 Using Material Design Dropdowns and Form Inputs

9.7 Introducing Angular Material into Your Angular CLI Project on the Top of MDB

9.8 Adding Radio Buttons, Slide Toggle, Slider, Progress Bar, and Spinner

9.9 Introduction to Firebase

9.10 Creating an App Using the Firebase Console

9.11 Setting up Your Angular CLI Project to Support Firebase

9.12 Interacting with the Firebase Realtime Database Using the Methods on  
AngularFireList

9.13 Adding and Reading Data from the Realtime Database in Firebase

9.14 Updating and Deleting Data from the Firebase Realtime Database

## Certifications

- ▶ **Accounting, Banking & Finance**
  - Certified GST Professional
  - Certified AML- KYC Compliance Officer
  - Certified Business Accountant
  - Certified BASEL III Professional
  - Certified GAAP Accounting Standards Professional
  - Certified Treasury Markets Professional
- ▶ **Big Data**
  - Certified Hadoop and Mapreduce Professional
- ▶ **Cloud Computing**
  - Certified Cloud Computing Professional
- ▶ **Design**
  - Certified Interior Designer
- ▶ **Digital Media**
  - Certified Social Media Marketing Professional
  - Certified Inbound Marketing Professional
  - Certified Digital Marketing Professional
- ▶ **Foreign Trade**
  - Certified Export Import (Foreign Trade) Professional
- ▶ **Health, Nutrition and Well Being**
  - Certified Fitness Instructor
- ▶ **Hospitality**
  - Certified Restaurant Team Member (Hospitality)
- ▶ **Human Resources**
  - Certified HR Compensation Manager
  - Certified HR Staffing Manager
  - Certified Human Resources Manager
  - Certified Performance Appraisal Manager
- ▶ **Office Skills**
  - Certified Data Entry Operator
  - Certified Office Administrator
- ▶ **Project Management**
  - Certified Master in Project Management
  - Certified Scrum Specialist
- ▶ **Real Estate**
  - Certified Real Estate Consultant
- ▶ **Marketing**
  - Certified Marketing Manager
- ▶ **Quality**
  - Certified Six Sigma Green Belt Professional
  - Certified Six Sigma Black Belt Professional
  - Certified TQM Professional
- ▶ **Logistics & Supply Chain Management**
  - Certified International Logistics Professional
  - Certified Logistics & SCM Professional
  - Certified Supply Chain Management Professional
- ▶ **Legal**
  - Certified IPR & Legal Manager
  - Certified Labour Law Analyst
  - Certified Business Law Analyst
  - Certified Corporate Law Analyst
- ▶ **Information Technology**
  - Certified Angular JS Professional
  - Certified Basic Network Support Professional
  - Certified Business Intelligence Professional
  - Certified Core Java Developer
  - Certified E-commerce Professional
  - Certified IT Support Professional
  - Certified PHP Professional
  - Certified Selenium Professional
- ▶ **Mobile Application Development**
  - Certified Android Apps Developer
  - Certified iPhone Apps Developer
- ▶ **Security**
  - Certified Ethical Hacking and Security Professional
  - Certified Network Security Professional
- ▶ **Management**
  - Certified Corporate Governance Professional
  - Certified Corporate Social Responsibility Professional
  - Certified Leadership Skills Professional
- ▶ **Life Skills**
  - Certified Business Communication Specialist
  - Certified Public Relations Officer
- ▶ **Media**
  - Certified Advertising Manager
  - Certified Advertising Sales Professional
- ▶ **Sales, BPO**
  - Certified Sales Manager
  - Certified Telesales Executive
